Gel Max

Three different materials combine to provide a precise fit, maximum protection and total comfort. Gel-fit liner material takes an exact impression of the teeth, providing a tight and comfortable fit. EVA form provides added support and protection. External rubber Kraton shock-absorbing frame with integrated jaw pads provides maximum impact protection for teeth, jaw, and brain. Breathing channel allows for easy breathing while clenched. \$10,000 dental warranty. Quick release helmet tether (strap model).

Power Gel Ultra

Semi-rigid inner Shock Transfer Core is covered by a soft moldable outer layer for easy and precise molding for a super tight fit. Lateral jaw stabilizers protect the lower jaw from side impacts. Aerofoil-shaped rear pads help protect the jaw, jaw joints and brain, lessening the chance of concussions. Shock Transfer Core directs impact shock away from front teeth to stronger triple rooted rear molars. Compact, tight fitting design allows for unrestricted breathing and speaking. M.O.R.A. performance enhancement may increase strength and athletic performance in a wide range of sports. \$12,500 dental warranty. Quick release helmet tether (strap model).
