Great For Youth And Adult Players

Play with a Soft Rubber Ball

Starter Kit

Based on European lawn tennis, it has evolved into one of the most popular sports today in Japan, Korea and Taiwan. Play singles or doubles, the same as regular tennis, but use soft rubber balls. Speed and power is replaced by strategy and skill. Reduced speed of the ball makes it fun to play for the whole family. Unique game maneuvers are possible with soft tennis, with varied rallies and net plays. Soft tennis balls are light, hollow and inflatable. Their performance varies depending on how much air is inserted. That helps prolong rallies and keeps the ball on the court. You simply insert the pin of the pump into the ball and inflate to desired pressure. Set includes one lightweight racket (which is more flexible than a traditional racket and with lower string compression), two soft hollow rubber tennis balls, pump kit (air gauge and pump), rule book and carrying case. Pump kit included to adjust ball air pressure. Balls are the same size as standard tennis balls.
