HLC-CS \$10.00 EA \$9.00 EA/10

## XLR8™ Speed Watch

Calculates speed of any object by automatically converting time and distance into MPH. Split feature allows measuring speed of a pitch and a second reading of the time it takes the catcher to throw to second or for the runner to reach first base. Track speed from anywhere. Allows recording speeds, tracking the number of events (pitches) and storing them in memory. Full functioning chronograph with split times. Memory capacity. Time/Date display. Digital pitch counter. Rugged, water and shock resistant high impact plastic construction. Lanyard and clip on belt holster. Long-life lithium batteries included. Ideal for any sport. China DL 3D-8SW1 \$37.00 EA

MADE IN USA

## Bushnell Velocity Speed Gun

Track speed from race cars to baseball pitches. Easy point and shoot operation. Large, clear LCD display. Displays fastest speed once trigger is released. +/-1 mph baseball accuracy. Can track the speed of a ball 6-110 mph from 100 feet away. Can track race cars from 6-200 mph from 1300+ feet away. Requires 2 C batteries. USA

Dimensions: 4.3" x 8.4" x 6"

## SpeedTracX All Sports Radar

Radar clocks speeds to 150 mph or 199 km/h. Records velocities of balls flying through the air for benchmark training. Uses the most preferred X-Band Dielectric Resonator Module utilizing state-of-the-art field effect transistor. Engineered to identify and track target while avoiding the ghosting effect inherent to radar devices. 2 layer PCB board provides greater stability of components. PC portal for add-on optional equipment. Thick polycarbonate housing. Tripod mount. Red 2.5" digital LED numbers. Speed recall feature for last recorded speed. Uses 4-C cell batteries or optional AC adapter. Carrying handle and stand. Dimensions: 6.5" x 7" x 2.3" Master Pack 6. Patent Pending. USA
