SKLZ®

Hit-A-Way Training Ball

Hit-A-Way is a batting aid for ball players of all ages. It attaches to most trees and poles in your backyard or on the field. Practice hitting to all fields, hitting high, low, or middle pitches; hitting fast or slow pitches, and batting right and left handed. The ball is attached to a solid polyurethane tubing, with adjustable Velcro bindings on each end that attach quickly and easily to most types of secured poles. Delivers simulated pitches allowing up to 500 swings per hour without chasing balls or using expensive machines. Develops better swing and stance mechanics for a homerun swing. Improves pacing, timing and confidence. Improved design in webbing and cords for cleaner hits and greater durability.

Simulates a pitched ball
Makes it easier to learn to switch hit
Provides immediate feedback on mechanics

The Eye Ball

Batting aid designed to help baseball players become better hitters. Polyurethane, regulation-size baseball molded around a nine foot, high-quality nylon rope with a plastic handle. Works like a pitched baseball. Speed, angle of the pitch and flight of the ball can be adjusted on every swing. Improves hand-eye coordination. Easy to use with no assembly or set-up required. Attractive clamshell 5.75" W x 9.5" H (2.5" wide base). For ages 7-adult. Properly fitted batting helmets are recommended for all participants.
