

QUICKMITT®

QUICKMITT® Hitting Mitts

Hang tag packaging will phase in.

Control Your Swing

Increase Bat Speed

Thick, Strategically-Placed Palmar Padding

Durable Leather

Palmar Padding

Reusable Mesh Bag Package

Patented palmar padding in the palm forces the bat to roll into the proper grip (the bottom three fingers of the back of the hand) and enter the hitting zone sooner. Thumb padding helps prevent getting jammed from a fast pitch. Durable leather construction, elastic wristband with spandex back. Each pair of QUICKMITT® gloves is packaged inside a reusable mesh bag that's perfect for use as a reusable storage pouch.

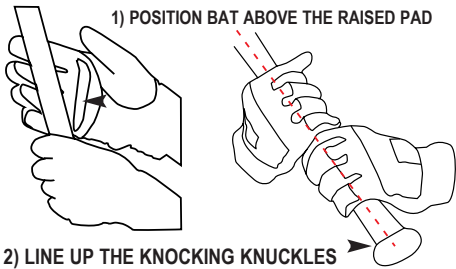

U.S. Patent #5,168,578
Five Adult Sizes: S MED LGE XL XXL
MG QMPR-B Black \$28.00 PAIR

Improve Leverage And Get Control Of The Bat

UPPER HAND Batting Gloves

Line up the Knocking Knuckles

Wear it on your "Upper Hand" when batting. Specially designed raised pad built into the palm positions the bat into the proper grip to increase bat speed and leverage. Promotes full wrist motion during a swing. It also protects against bone bruises and absorbs shock. Benefit from built-in safety features that help reduce forearm tension and prevent bone bruises. Power Pair Hitting System includes one pair of batting gloves to give you a powerful, secure feel. When worn on both hands, UpperHand® will automatically line up the "Knocking Knuckles" to achieve maximum strength at point of contact, so you can "feel the swing!"

Raised pad positions the bat into the proper grip
