

C-FLAP®

FACIAL PROTECTION FOR BATTERS

Cover your jaw and protect your cheek.

#1 for Face Protection. Innovative patented design of the C-Flap® guard helps prevent injuries to the cheek and jaw. Easily mounts to the ear flap of the batting helmet, covering the side of the face exposed to the pitcher, without obstructing vision or air flow. Lexan plastic construction is stronger than most batting helmets. Padded inner surface provides added protection. Builds confidence for both big and little leaguers. One size fits all. Attaches to most batter's helmets, even those that use chin straps. Instructions and hardware included. Drill (7/32" drill bit) and flat-head screwdriver required for installation. Helmet sold separately. Made in the USA. Patented in USA and foreign markets.

Always use "MW" prefix when ordering Markwort C-Flaps®.

For Adult and Youth Batters
